Committed to your mission

Corporate Overview

Vadosity serves Federal Agencies and commercial enterprises with its distinctive ability to research advanced scientific/financial domains and transforms this knowledge into cutting edge software solutions. Vadosity specializes in cloud-based enterprise Java solutions.

Past Performance

Federal Contractor Profile

- NAICS: 511210, 541511, 541512, 541519, ... (Computer Programming & Systems Design)
- DUNS: 080734129
- CAGE: 7X8N8
- CVE Verified Service-Disabled Veteran Owned Small Business
- Pennsylvania-verified Small, Diverse Business

Breakthrough Engineering

Vadosity differentiates itself from competitors with Engineering Breakthroughs that have saved the government millions, solved 'unsolvable' problems, shortened delivery times by months and fulfilled customer requirements with innovative solutions that exceed expectations.

Health Care IT

Our leadership architected and led development of the VA's Vista Integration Adapter (VIA). VIA is the premier web service for the world's largest integrated hospital system. This success has led to over \$26 million in direct follow-on work.

Information Technology

- Full Stack Software Development
- Cloud-based Mobile Applications
- Green field to Legacy system development
- Business Communications
- Technical Staffing
- Data Migrations
- Customized Workflow Management Systems

A CVE VERIFIED SERVICE-DISABLED
VETERAN OWNED SMALL BUSINESS

ABOUT VADOSITY LLC

MISSION STATEMENT

We focus on the customer's underlying problem(s) and do whatever it takes to make them successful. We apply technology to solve problems – we don't just focus on technology. We fulfill customer requirements with innovative solutions that exceed expectations. Our positive, engaged, "best idea wins" company culture differentiates us from the competition. We also embrace service at our core - understanding that we must take care of our customers and their mission - and always act in their best interest, even when it may not be in our best interest.

Defined by Service
